SUMMARY

Software engineer with 5 years of experience, specializing in React Native. Started as a backend developer (Node.js APIs, auth, databases), then moved to mobile, shipping production apps for insurance, e-commerce, ride-sharing, and healthcare clients in Saudi Arabia and Egypt — published to the App Store, Google Play, and Huawei AppGallery. Strong on payments, Arabic/RTL, CI/CD with GitHub Actions, and store publishing end to end.

PROJECTS

Manafith — vehicle insurance app (Saudi market)

- Built and shipped end to end: policy purchase and vehicle flows, chassis verification, plate configuration, payment integration, full Arabic RTL.
- Published and maintained releases on three stores.
